

# ULTRAFLEX ONE

Improved lock for easy donning and doffing by the patient or caregiver.

Extension or flexion ROM limits for protected motion, support and positioning.

Static progressive stretch option with simple worm drive adjustment.

Dynamic extension and flexion assist in one component, easily reversed by the patient or caregiver.

3 sizes, kit includes wrist and ankle bar modifications.

The ONE™ solution for all your rehab needs. Ultraflex ONE™ is a patent pending, breakthrough technology that provides protection, stability, functional assist and LLPS in ONE™ family of advanced orthoses.

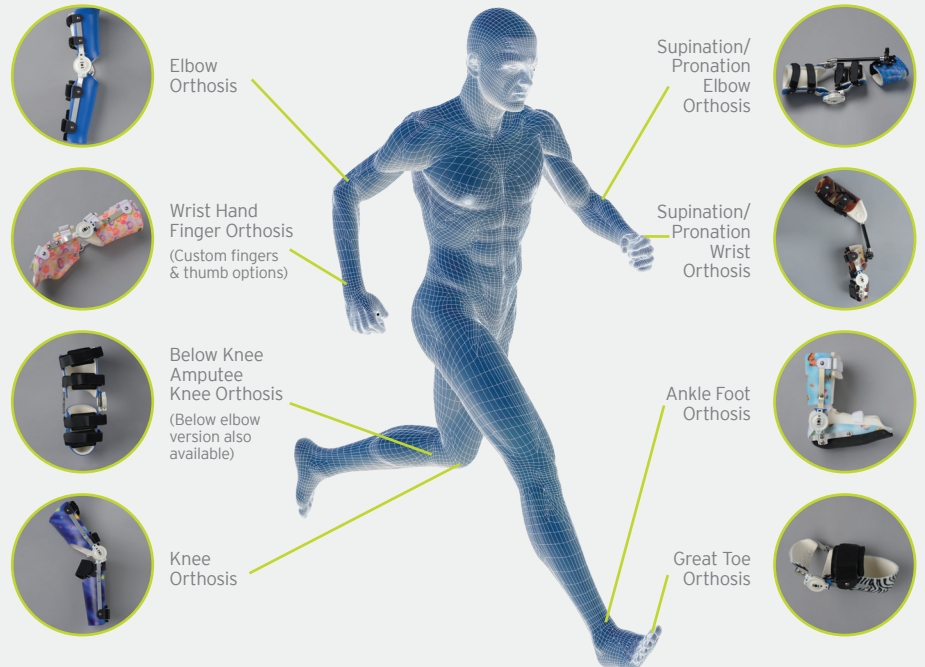

Ultraflex® bracing is the only technology that can control ALL planes of motion and stretch multiple joints in one orthosis.
